### **Minutes**

The teachers involved were English language and History teachers. They were accompanying 26 students of the 10 grade from Ramuciai gymnasium. The main purpose of the meeting was to introduce the final OFF-Book results, the video tutorial and the Teacher's Guide, and to get people involved in practical workshop delivered by the OFF-Book students from Simon Dach progymnasium. The video tabs were shown in order to illustrate the same activities in the Teacher's Guide, which was also presented and given as a gift for the associated partners.

The outcome of the meeting has two points. The first one is the shared positive experience with the associated partners in theory and practice. The OFF-Book students organised the practical workshop for all the participants. There were five activities presented: *Contact Point with Ground*, *Dummies*, *Squat Down and Squat Up*, *Humans and Statues*, *One Story for Everyone*, and *The Guide*. The second point is the general feedback, collected from the participants; students had a free-style evaluation while teachers and educators had formal OFF-Book evaluation questionnaires.

The general participants' feedback is positive, students especially loved the practical part of the meeting, and focused in the activities they liked the most. Teachers and educators are complimenting the simplicity and informativity of the Teachers' Guide, additional positive aspect, as they named, is the video format and informal meeting style.
